

NAA19 Educational Sessions At-a-Glance

Updated February 25, 2019

Preview the adult learning opportunities at the [2019 NAA Convention](#), March 15-18 in New York City!

Our primary goal with Convention is to deliver exceptional learning opportunities to help further your work and professional development. We are offering more than 175 sessions at Convention.

Register today at <https://naaweb.org/attend/registration>.

Sessions are sorted by date and time. View the full NAA19 schedule at <https://naaweb.org/attend/schedule>.

Please note: All content – including presenters, titles, descriptions, dates, times, and rooms – is subject to change or cancellation.

We look forward to seeing you in New York City!

Saturday, March 16
8:00am – 9:00am
Workshop Block 1

Data Transformation ⇔ Strategic Revolution

Transform your data and revolutionize your afterschool program strategy! This session will offer a thoughtful and comprehensive program evaluation plan that will generate well-developed strategies to support continuous program improvement. Take your program from good to great!

Presented by: Deb Campobasso, Saint Paul Public Schools; Katherine Gray, Saint Paul Public Schools; Kristin Johnstad, Johnson and Associates LLC; Disheona MaGee, Saint Paul Public Schools; Kristi Rogalla, Saint Paul Public Schools

Room: Beekman

Content Level: Proficient

Strand: The Nuts and Bolts of Program and Professional Development

Finding the Center: Youth Voice and SEL (E)

When we put youth voice at the center of our programs, transformative things can happen. Rich discussions unfold, participation increases, and students take a more active role in their own learning. This session will give participants an opportunity to see and hear what can happen when student voices are placed at the heart of SEL instruction. Participants will learn how to use Youth Communication's uniquely relevant teen-written stories to generate discussion of SEL skills, engage in group discussions, and pair activities that support active listening and student engagement.

Presented by: Janelle Greco, Youth Communication

Room: Murray Hill East

Content Level: Proficient

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

Identifying and Activating Partnerships for Wellness

The NAA HEPA standards 2.0 are out! How can partnerships help you make your HEPA action plans a reality? This session provides examples of how different types of programs have collaborated with schools, community-based organizations, and business partners to use the NAA HEPA standards 2.0 to help build a culture of wellness. Through tabletop

activities, participants will assess existing relationships, identify where partnerships could be most helpful, and identify next steps for partner engagement.

Presented by: Lauren Barineau, Boys & Girls Clubs of America; Michelle Owens, Alliance for a Healthier Generation

Room: Sutton Center

Content Level: Proficient

Strand: Partnerships with Purpose - Family, School, and Community Relationships

Igniting Leaders with Communities of Practice

By infusing storytelling and rich dialogue, this session will lead you through a series of experiences to help you to consider the elements that are necessary to ignite and inspire afterschool leadership within the construct of a community of practice. Pulling from research on cultivating a learning culture, and more specifically a community of practice, this session will illustrate how an intentional process of shifting from a compliance mindset, to a focus on a community of individuals aligned to a collective vision can inspire a workforce to evolve in terms of engagement, performance, and innovation. Learn how to create an opportunity for leaders to flourish by cultivating a community of practice!

Presented by: Nicole Edwards, Prime Time Palm Beach County

Room: Nassau East

Content Level: Proficient

Strand: Developing Leaders and Advocating for Afterschool and the Profession

Local to Global: Building Afterschool Leaders

In this session, participants will engage in interactive methods and learn compelling content that helps promote global citizenship, teen activism, and action planning around self and community advocacy.

Presented by: Wida Amir, Global Kids

Room: Nassau West

Content Level: Developing

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

Rise Up with Purposeful Play!

What is purposeful play? In this hands-on session, participants will discover research from "The Genius of Play," which includes the importance of play-based learning, and how to put the research into action.

Presented by: Tyler Kearns, Clayton Kid Zone; Janis Zegman, The Toy Association

Room: Rhinelander North

Content Level: Developing

Strand: The Nuts and Bolts of Program and Professional Development

Tips and Resources for Bringing SEL to Afterschool Programs

SEL is critical to young people's success in and out of school, and has the power to positively change the trajectory of their lives. But how do you bring SEL to a group of kids who are weary of learning after a day, or year, of school? Join us for an open exchange, including lessons learned from the field, of fun ways to integrate SEL. You'll also experience and reflect on a movement-filled activity for kids ages 5-11, and you'll walk away with practical ideas and a series of playful activities to put into action.

Presented by: Angela Fountas, Committee for Children; Tricia Maas, Committee for Children; David Martineau, David P. Weikart Center for Youth Program Quality

Room: Clinton

Content Level: Proficient

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

**Saturday, March 16th
11:30am - 12:30pm
Workshops Block 2**

Aligning Your Staff's Passions and Programming

The Youth Empowerment Project (YEP) is a New Orleans-based nonprofit organization focused on empowering young people to improve their lives and the lives of others through mentoring, education, enrichment, and employment readiness training. YEP operates year-round out-of-school time programming engaging underserved youth ages 7-17, and recognizes the value of hiring and developing young staff. YEP intentionally seeks to hire program alumni and graduates. In this interactive session, participants will become familiar with YEP's practices of developing young professionals from similar backgrounds as youth served to integrate their individual passions into out-of-school time programming.

Presented by: Darrin McCall, Youth Empowerment Project; Shana Rubinstein, Youth Empowerment Project

Room: Concourse D

Content Level: Proficient

Strand: The Nuts and Bolts of Program and Professional Development

Cultivating Passion and Persistence through PBL

Project-based learning (PBL) is a student-centered way of instructing that allows youth to learn by investigating and responding to complex questions, challenges, and real-world problems that they are passionate about. This session will highlight how Horizons at Georgia Tech allows students to rise up and, through PBL, tackle issues facing society, such as school safety and natural disaster preparedness. Participants will explore the elements of gold-standard PBL and learn how to effectively implement PBL in out-of-school time to create opportunities for students to build persistence through passionate engagement in their learning.

Presented by: Sirocus Barnes, Georgia Tech-CEISMC; Shameka Williams, Horizons at Georgia Tech

Room: Sutton North

Content Level: Developing

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

Culturally Agile Trauma-Informed Care

“Trauma-informed care” is a popular term and practice that encourages youth development professionals to be aware of and sensitive to trauma experienced by youth. Research supports that trauma occurs and manifests in various physical, emotional, and behavioral capacities. Professionals are learning how to respond to behaviors that may be the result of traumatic events and utilize new approaches to framing and redirecting behavior. On the surface, the philosophy sounds logical, helpful and caring. However, without appropriate knowledge, personal awareness, and skill-building, practitioners with good intentions can cause more issues. Come learn to add a culturally agile lens to trauma-informed care.

Presented by: Marcy Peake, The Center for Cultural Agility & WMU

Room: Sutton South

Content Level: Advanced

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

Developing Critical Thinking and Creativity through Chess (E)

It’s not just kings, queens, and knights, but rather quadrants and coordinates, recognizing patterns, and thinking ahead. In this hands-on workshop, learn how anyone, regardless of chess knowledge, can help young people slow down and focus, think before they act, and make good decisions – all by learning to play chess.

Presented by: Wendi Fischer, America's Foundation for Chess; Karen Klages, America's Foundation for Chess

Room: Gibson

Content Level: Developing

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

Engineered for Success: Robotics and Coding (E)

When students are immersed in STEM learning and understand how it affects their daily lives and futures, that’s when they really engage. Robotics offers a great tool for building initial STEM interest and sustaining enthusiasm as students are challenged to solve real-world problems that require critical thinking, collaboration, and innovation. Join us for a hands-on workshop that highlights how to use the TETRIX® PRIME Building System to create a STEM-centric, project-based learning environment that meets middle school Common Core and Next Gen Science standards. Engineered to be simple and intuitive, the PRIME Building System and all-new, Pulse Controller enables robotic creations to come to life quickly and easily!

Presented by: Kristina Davis, Pitsco Education

Room: Regent

Content Level: Proficient

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

Experience Speed Stacks-Skillastics (E)

Join us for an active session showcasing physical activities from the video-based Sport Stacking with Speed Stacks Instructor Guide, featuring new activities from our comprehensive curriculum. This session will also feature our new Speed Stacks-Skillastics activities. Experience the excitement, fun, and movement these activities offer every student, regardless of ability.

Presented by: Matt Burk, Speed Stacks Inc

Room: Rhinelander North

Content Level: Developing

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

Fun and Games for a Sustainable World

Discover fun, interdisciplinary, hands-on activities that foster environmental awareness among school-age children while building skills in STEM, literacy, and geography. Participate in games, role-playing, and problem-solving challenges that help students explore their connection to other people, all living things, and the environment. Hands-on activities address natural resource use, population trends, wildlife habit, fresh water, and our changing climate.

Presented by: Sara Kempton, Friends of Van Cortlandt Park

Room: Concourse B

Content Level: Developing

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

Fund Development 1-2-3: Where, What, and How

When it comes to fund development, where are you? What do you need? How do you get there? Whether you need to raise \$500 or \$50,000, join this interactive session for

evaluation, tools, and strategies. Fund development might not always be fun, but it doesn't have to be awful either. Fund development, fundraising, and sustainable business models are on everyone's minds. What can you do to diversify your revenue streams? Join us to learn and share tricks and strategies.

Presented by: Beverlee Wenzel, The ROCK Center for Youth Development

Room: Concourse E

Content Level: Advanced

Strand: The Nuts and Bolts of Program and Professional Development

Help Your Board Help You Fundraise

Boards are often your organization's most committed volunteers. But just as often, some board members can be uncomfortable or even afraid to fundraise, which is a key part of their board responsibilities. This session will help staff educate board members and make them comfortable in helping with fundraising through prospecting, introductions, cultivation beyond their personal networks, and co-solicitation. Board members are welcome as well!

Presented by: Ed Spitzberg, Spitzberg Advisors

Room: Concourse C

Content Level: Proficient

Strand: The Nuts and Bolts of Program and Professional Development

How to Use Technology to Attract and Retain Today's Parents (E)

Technology is a key differentiator between today's parents and those from prior generations. Today's parents depend on technology to communicate, socialize, manage their finances, and more. That's why they expect their child care provider to use technology to communicate with them, enable them to purchase goods and services, and feel connected to their child's day via mobile texts, updates, and photos. Learn how you can meet and exceed the expectations of today's tech-savvy parents and embrace new technology, such as parent engagement mobile apps, self-service portals, and online credit and debit card payments.

Presented by: Scott Bishop, SofterWare

Room: Clinton

Content Level: Developing

Strand: Partnerships with Purpose - Family, School, and Community Relationships

Linking School and Afterschool STEM Learning (TP)

Join afterschool educator colleagues and a representative from the National Science Teachers Association (NSTA) to explore how connections are made regarding the use of trade books to connect literacy and science experiences, how afterschool educators can connect with resources regarding the Next Generation Science Standards (NGSS), and coordinated in-school and afterschool learning programs.

Presented by: Teneika Benn, NYC Department of Education; Chrissy Joseph, IS 364K Gateway; Rachel Kessler, OregonASK; Anita Krishnamurthi, Wellcome Trust; Dennis Schatz, National Science Teachers Association (NSTA); Kristina Wells, New York Junior Tennis & Learning; Nancy Woods, NYC Department of Education

Room: Beekman

Content Level: Proficient

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

Math? No Problem! (E)

It takes time to create passionate and persistent mathematicians. The earlier we begin, the better start students have at succeeding in math, the single strongest indicator of future academic success. Starting with fun and engaging games that develop necessary skills is essential to keep students engaged, passionate, and persistent in mathematics. Participants will play games that help develop conceptual understanding of mathematical concepts. These games can be taken and used right away in your programs with little to no supplies, or mathematical skills, necessary. Come learn to enjoy math with us!

Presented by: Mary Curry, MANGO Math Group

Room: Concourse G

Content Level: Developing

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

Partners with Purpose: It's All About Character (E)

“Use your head and your heart, and think about others.” If this speaks to you, come learn about the importance of infusing character education and SEL into your afterschool program. You will get actively involved in trying out the Kindhearted Kids Program, which teaches kids to use their heads and hearts, and think about others through the adoption of a stuffed pet and lots of engaging activities. In addition, the Family Toolkit of Character is hot off the press, and is sure to capture the hearts of you and your families, while providing a link between home and school. Both programs are easily accessed and ready

to go. Take a chance on winning a Family Toolkit of Character for your educational setting, too!

Presented by: Nan Welch, Two by Two Character Development; Kristin Woodward-Vaassen, Two by Two Character Development

Room: Madison

Content Level: Proficient

Strand: Partnerships with Purpose - Family, School, and Community Relationships

Rubik's Cube Clubs and the Power of Play (E)

Rubik's Cube clubs foster positive peer collaboration among students of all ages. Students can support one another's successes as they learn to solve the Rubik's Cube, work together to create strategies for memorizing algorithms, and stretch their creativity by designing and building Rubik's Cube mosaics. Rubik's Cube lessons also address a variety of STEM concepts, critical thinking skills, and social emotional learning. Rubik's Cube clubs that are a part of quality afterschool programs can help students build life skills, a sense of belonging, resilience, and self-esteem. Participants will receive information on how to implement Rubik's Cube clubs and how to receive the Cubes and resources at no cost.

Presented by: Diana Gettman Flores, You CAN Do the Rubik's Cube

Room: Nassau East

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

TGIF: Thank Goodness It's Fun (E) (TP)

Who knew teaching and learning math could be this much fun? Learn how to use regular cards and dice to teach operational fluency concepts and strategies. Play our favorite and newest games that teach basic facts, operations, number sense, and place value. Game boards, student samples, and journal ideas will be provided.

Presented by: Stephanie Bainbridge, Box Cars And One Eyed Jacks

Room: Gramercy East

Content Level: Developing

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

The +/- Code to Develop Emotional Intelligence (E)

The +/- Code is an in-school and afterschool program that helps students develop their emotional intelligence. Emotions are at the core of relationships, reflections, and life choices to reach success and happiness. The program is designed for young learners ages 7-17, including those with high potential, learning difficulties, or autistic spectrum disorder. It is a new way to help students develop their discernment, decision-making abilities, and leadership skills. It is also a fun interactive and instructional game to enjoy with friends, educators, and parents!

Presented by: Eloi Delmonico, Source Code Technology (SCT)

Room: Murray Hill West

Content Level: Advanced

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

The Art of Playing (E)

Get empowered with tools to enhance strategic thinking and 21st century life skills through the instruction of a unique selection of strategy games. This innovative and research-based approach fills the gap between school education and real-life challenges by teaching students how to think rather than what to think.

Presented by: Dori Larea, Nexlore USA

Room: Nassau West

Content Level: Proficient

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

Trauma-Resilient SEL: A Vision for Transformation (E)

Discover how LA's BEST and the Sanford Harmony SEL Program have joined together to create conditions to empower children's voices and choices and develop healthy relationships. Learn how LA's BEST is transforming into the nation's first large scale, trauma-resilient expanded learning system, by partnering with Sanford Harmony to take traditional SEL strategies to new levels of depth and meaning. Participants will engage in Sanford Harmony routines and activities that help diverse students connect, communicate, collaborate, and respect one another. Sanford Harmony kits and training are available for your organization for NO COST.

2:00pm – 3:00pm
Workshops Block 3

Addressing Current Events in Afterschool

With current events being center stage in the news and social media, we know they are also in the minds and conversations of youth. This interactive workshop provides best practices to help afterschool and youth professionals create engaging experiences and environments for young people as they tackle these prominent, often complex issues in a timely and relevant manner.

Presented by: Rachel Greene-Wilber, Boys & Girls Clubs of America

Room: Murray Hill East

Content Level: Proficient

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

Art to Promote Youth Voice (TP)

This hands-on art experience will give afterschool facilitators the tools they need to do fun and empowering art with school-age youth. We will explore activities aligned with national art standards and find flexible ways to use a variety of materials and techniques. An example curriculum will be provided.

Presented by: Rachel Kessler, OregonASK

Room: Murray Hill West

Content Level: Developing

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

Building 21st Century Skills for OST

Learning and innovation skills are increasingly being recognized as separating students who are prepared for a more complex life and work environment in the 21st century and those who are not. This hands-on and interactive session will help you integrate 21st century skills into everything you are already doing, all the time! Leave with fun and inspiring resources that encompass vital 21st century skills that encourage and engage students in all subjects areas and at all grade levels. By helping students collaborate, create, communicate, and comprehend their experiences, they will become confident,

curious, compassionate, and committed! You will learn how to identify new ways to incorporate 21st century skill-building beyond the bell.

Presented by: Meredith Scott Lynn, WRiTE BRAiN BOOKS

Room: Sutton North

Engaging Families Experiencing Poverty

This session will provide participants with a foundation for developing a high-impact, needs-based family engagement plan to reach their most marginalized families. Together we'll explore key strategies for a healthier, more supportive relationship with families.

Presented by: Tamsyn Oakes, Kentucky Out-of-School Alliance

Room: Sutton Center

Content Level: Developing

Strand: Partnerships with Purpose - Family, School, and Community Relationships

Improving Equity by Engaging Families

Families play a vital role in raising youth awareness of the value of STEM and in brokering youth participation in activities that build STEM interest and skills. For this reason, it is imperative that youth-serving programs share exemplary and promising practices around engaging families in the work that they do. From different approaches in delivering your message to rethinking your program design, come learn from researchers and practitioners who have placed family engagement at the center of their approach. We also welcome you to share your own challenges and successes in this interactive panel session.

The Power of a Positive Feedback Culture

As leaders it is our responsibility to make the invisible visible. Delivering effective feedback can be a challenge. There are many factors in successfully delivering clear and consistent expectations to our teams. Staff need context, connection, and clarity before they can implement new learning. Ineffective or infrequent feedback can cause confusion, mistrust, resentment, and ineffective performance. In this highly interactive session we will learn how to build a positive feedback culture within our teams. We will examine the connection between our words and how the brain inputs, interprets, and implements new information; tackle the obstacles to clear communication; and build a safe coaching practice with our staff.

Phase 10 Project: Facilitating Games with Teens

Game play has been used for decades in early childhood education to teach a variety cognitive and non-cognitive skills. In higher education, schools like MIT have begun to explore the intersection of games and learning complex ideas. But how can out-of-school time professionals utilize game play, especially when working with the challenging age range of high school students? Based on a study using the card game Phase 10 and three groups of teens, this workshop will explore the possibilities of how different types of facilitation styles during game play can affect community building in adolescents.

Retention is Key to Building Our Workforce

Because retention is a challenge in our field, it is crucial that we show a great deal of importance to the work our youth professionals do every day with the children they serve. Taking a page out of the corporate playbook to build a high-performing workforce, we need to understand our staff's knowledge, capacity, and motives to build a quality afterschool program. Learn how the afterschool field can benefit from the corporate world's best practices in developing their workforce.

How to Bring the Best Enrichment to Every Child (E)

Enrichment is a key element in afterschool programs and augments traditional afterschool care. Such enrichment gives precious learning opportunities that can significantly change children's lives. Supporting every child to access enrichment can give districts, schools, and foundations the opportunity to make a bigger impact on their communities. If you believe it to be too complicated or too resource intensive, we'll help take that burden off your shoulders! In this session, we will demonstrate how some innovative districts and schools build and sustain vibrant afterschool enrichment programs using novel technologies like 6crickets for efficient management of quality programs and fundraising.

Moral Literacy and the Story Arts in Afterschool

Going back to the origins of theater, the art of storytelling has had two chief aims: to provide audiences with moral content to which they can aspire, and to portray the moral characteristics they actually possess. In today's media-saturated culture, however, the line between these two types of story content is often unclear. When selecting, analyzing, and creating material for creative afterschool classes such as theater, filmmaking, writing, and the visual arts, providing students with an understanding of this fundamental distinction is paramount. Rather than to simply provide professional development in the creative field, the aim of Manhattan Youth's story arts classes is therefore to prepare students as active cultural participants.

Social Justice through Youth Development

Youth who have social capital are better able to navigate and negotiate through the myriad of barriers that lead to social injustice. Social injustice describes societal inequities that marginalize groups by diminishing access to quality education and other human rights. Variation in access to social networks are a major factor in continuing inequality in the United States. Youth programs can better connect youth to their communities in

meaningful and purposeful ways, which can improve our chances of creating environments where youth feel a sense of agency and are equipped with resources to combat social injustice. This session will highlight principles to make us intentional in our social justice youth development efforts.

Ordinary Magic: Building Resilience through OST

When it comes to resilience in children, no magic or bubble wrap is needed - it is about developing meaningful relationships that help young people build their internal strength from a young age rather than shielding them from adversity. This session will focus on shifting perspectives from "what's wrong with you" to "what happened to you," and on how we can support resilience and student success through interventions and positive coping strategies.

Presented by: Shelley Bromberek-Lambert, YWCA; Kealy Schroeder, YWCA Metropolitan Chicago

Room: Clinton

Content Level: Proficient

Strand: Creating and Enhancing Experiences, Environments, and Engagement For Young People

Persist: Commit to Reflection!

Establishing a reflective practice is personally and professionally challenging. Reflection takes time (don't have it) and commitment (already stretched thin). How and when do we communicate with staff WHY we do things the way we do things? How do they know what makes a desired behavior a best practice? Reflecting together about the purpose behind performance expectations and programming quality can bridge "the why" to "the work." This session will offer a user-friendly framework for coaching staff toward theory-informed reflective practice.

Presented by: Emily Holder, Saint Paul Public Schools

Room: Madison

Tapping into the Incredible Potential of Giving

Individual giving fundraising has incredible potential. It engages supporters in new and meaningful ways, grows an organization's reach, and provides unrestricted funding – allowing programs to determine for themselves which resources and activities are best. In this session, we'll explore your relationship to and history with money and power to identify potential barriers to doing the work. We'll dive into tools and resources that can help you and your team get moving with an individual giving campaign as soon as tomorrow. Fundraising is at its best when done in community with others. Find allies and learn how to build your own community of believers to support your cause!

The National Service Pathway to Afterschool

National service members not only provide valuable support to their host organization, but also gain hands-on learning and professional development experiences. According to the Service Year Alliance, over 44,000 national service members provide in-school and afterschool support to at-risk youth. These service members gain an in-depth understanding of how afterschool programs are run, the partnerships integral to afterschool, and more. This session will explore how organizations can positively encourage service members to leverage their experiences and knowledge to grow into afterschool leaders and advocates. Learn about the diverse roles that service members can play at your organization and in the afterschool field.

#BestCoworkersEver

Co-workers don't have to be the best of friends, but every employee has a role and no position is more or less important than another. The boss is just as valuable as the custodian, and the easiest way to get employees to be as productive as possible is to treat them as valued team members. This is even more critical in today's workplace. With five generations in the workforce, each generation has different ways of communicating, ways of working, and expectations for compensation, benefits, and advancement. These generational differences often result in tensions and misunderstandings, but differences can provide opportunities for new ideas and unprecedented growth.

Happily Ever After: Intro to LGBTQ Children's Books

This session offers participants a hand-on introduction to different types of children's and middle reader books that feature lesbian, gay, bisexual, transgender, and questioning themes and characters. Innovative books like "George," "And Tango Makes Three," and "I am Jazz," among others, can be useful tools for creating inclusive spaces for LGBTQ young people and families, and for facilitating conversations with youth about gender variance, unconscious bias, and diversity. Participants will be given resources for guiding discussion, prompting questions, and intervention strategies to ensure conversations are safe, productive, and engaging for youth.

Take Your STEM Program Out of This World! (E)

The ISS National Labs Space Station Explorers has over 20 programs that can help your students be inspired and engaged in real space science and research. We will share free and low-cost K-12 curriculum and activities that you can share with students the day you get back, including some giveaways today! Learn about the Space Station Explorers Ambassador Program and how the program can support you to continue to be a leader in the field.

Urban Birding (TP)

Lecture is sometimes necessary, but hands-on experience leaves a lasting impact! Urban birding is an engaging opportunity to involve the public in scientific discovery, and to use this knowledge to protect the planet. This program allows K-12 students to participate in national research. Under staff and student leadership, students target 16 species of birds, raise awareness, and help scientists learn how birds use habitats by collecting and sending data. Along with this research, all students also have exposure to nature trails, parks, zoos, magnifying equipment, photography, and community challenges.

Workshops Block 10**

9 Steps to Creating a Culture of Caring (TP)

Do you want the culture of your program to be a living example of your vision, values, and desired behaviors? Do you want some powerful and proven practices that will enable you to create an organizational culture of caring, collaboration, and commitment? Attend this session! Learn the secret strategies we used to be named a top workplace in New Mexico six years in a row. Learn how to decrease staff turnover, conflict, and stress while increasing productivity, empowerment, and job satisfaction. Learn how you can create a culture of caring by creating rituals, establishing relevance, and investing in relationships. Learn the art and science of making creativity, celebration, and continuous quality improvement core components of your culture.

Engineering for Social Impact

Join us as we explore concrete ways that youth in grades 3-8 are engineering for social impact, using an engineering design process to collaboratively create solutions to problems they identify in their own communities. In small groups, we will examine stories of educators using engineering curricula to inspire youth-driven community action and hone 21st century skills like problem-solving and collaboration. Groups will review a case studies, brainstorm other elements of curricula that could spark social impact, and share their observations. Participants will make connections to their own work and reflect on how to incorporate thought-provoking engineering problems that are both personally and globally meaningful.

60 Seconds that Can Change a Young Person's Life

“So, tell me about yourself?” That’s a common question young people hear when interviewing for a job or college. The answer can have a big impact on their lives -- it's their personal pitch. You will walk away from this session with everything you need to teach your middle and high school kids how to create and deliver an effective personal pitch. Help your kids (and you!) develop this critical life skill.

Adventures in Shared Leadership

Unlike traditional top-down leadership, shared leadership empowers all organization staff by giving each an opportunity to lead in their area(s) of expertise. Giving up that level of control can produce great results, but is not for the faint of heart. This TED Talk-style presentation will introduce principles and best practices of shared leadership through a wry reflection on the presenter's journey: founding a local government service corps while relegated to her couch by pregnancy complications, laying the groundwork for President Obama’s My Brother’s Keeper initiative, leading a local afterschool nonprofit through an unanticipated fiscal crisis, and leading a distributed national afterschool network through strategic restructuring.

What's at Stake? Integrating Stakeholder Feedback

California has a very diverse set of almost 4,500 state and federally funded expanded learning programs with a wide range of needs and desires. The California Department of Education (CDE) has implemented a unique strategy to not only identify goals to integrate into the strategic plan, but to implement the plan. The CDE has incorporated the voice of over 200 field stakeholders to identify needs and make recommendations for how to address those needs. Stakeholders have helped inform the work of several different topics, including policy, quality, K-12 collaboration, communication and workforce development. In this session, participants will get a brief overview of the process and get a chance to work together.

College Readiness through University Partnerships

In this session, participants will learn how to create sustainable, high-quality partnerships with universities to promote youth exposure to higher education by integrating college access within afterschool.

Presented by: Sterling Johnson, Promise South Salt Lake

Room: Clinton

Content Level: Proficient

Strand: Partnerships with Purpose - Family, School, and Community Relationships

Finding Middle Ground: Children with Special Needs

The session will focus on the background, challenges, and findings of a case study conducted through the National Afterschool Matters (NASM) Fellowship with the intent of investigating how coordination efforts between schools and an OST program can improve services for children with special needs. Participants will engage in a candid discourse of how a case study involving a single child with special needs resulted in small but tangible changes, as well as larger, more significant ones that will impact an entire OST program and its connections with feeder schools. Participants will be challenged to examine the current practices of their own programs and contemplate where improvements could potentially be made.

Rural Afterschool: A Learning Community

As stated by the National Forum to Advance Rural Education, "For most rural school districts in this country, collaboration is not a choice, it is a necessity." Moreover, there are few spaces and places where rural OST practitioners, policymakers, and researchers can come together to collaborate. In that spirit, this session will bring people together help inform, inspire, and empower collective action towards creating quality out-of-school opportunities. Participants will develop a list of key rural issues, share their stories, and weigh in on the value of creating a rural afterschool learning community.
